

(Personal CV)

Full name: Dr. Yasser Chasib Bakheet Mubarak

Job: Instructor/College of Science/ Dep. of Astronomy and Space / University of Baghdad

Date of Birth:1974/7/1

E-mail: yassermobark74@scbaghdad.edu.iq

Official mail: yasser.bakheet@sc.uobaghdad.edu.iq

General Specialty: Astronomy

Specialization: Astronomy

Scientific title: instructor

Date granted title: 2012

Residence address: Baghdad Governorate

Certificates

Certificate	Date of certificate	College / University
BSc/ Science of Physics	1998	College of Science / University of Baghdad
MSc/ Digital Image Processing	2003	College of Science / University of Baghdad
PhD/ Astronomy	2017	College of Science / University of Baghdad

Courses

Laboratories

Subject	Level	Department
Computer Lab	First Stage	Department of biology
Fundamentals of Remote Sensing Lab	Third Stage	Department of Astronomy and Space
Geographic Information Systems Lab	Third Stage	Department of Astronomy and Space
Numerical Analysis Lab	Second Stage	Department of Astronomy and Space
Complex Analysis Lab	Second Stage	Department of Astronomy and Space

Theoretical lessons

Subject	Level	Department
Fundamentals of Remote Sensing	Third Stage	Department of Astronomy and Space
Geographic Information Systems (GIS)	Third Stage	Department of Astronomy and Space

Supervision / Graduation projects

Title of graduation project	Level	Department
Study of Land Cover Changes in Baghdad City Using Remote Sensing Techniques	Fourth Stage	Department of Astronomy and Space
Study of Surface Temperature Changes in Basrah City Using Remote Sensing Techniques	Fourth Stage	Department of Astronomy and Space
Monitoring the Changes of AL-Razzaza Lake South-West of Iraq Using Remote Sensing Techniques	Fourth Stage	Department of Astronomy and Space
Using Remote Sensing Techniques to Study the Changes in Water Area of AL-Habbaniya Lake - West of Iraq	Fourth Stage	Department of Astronomy and Space

Examining/Graduation Projects

Number of graduation projects	Level	Department
10	Fourth Stage	Department of Astronomy and Space

Examining/ Seminars for postgraduate students (Masters)

Number of Seminars	Level	Department
4	Fourth Stage	Department of Astronomy and Space

Researches

Title	
Land Cover Change Detection of Baghdad City Using Multi-Spectral Remote Sensing Imagery	1
Study of Land Cover Changes of Baghdad Using Multi-Temporal Landsat Satellite Images	2
Off-line Arabic signature recognition based on invariant moments properties	3
Recognition the Arabic Characters Based On the Characteristics of Arabic Language	4
Calculation of the Parameters for Atmospheric Model for the Earth	5
